NRC FORM 483

U.S. NUCLEAR REGULATORY COMMISSION

APPROVED BY OMB: NO. 3150-0038

REGISTRATION CERTIFICATE -- in vitro TESTING WITH BYPRODUCT MATERIAL UNDER **GENERAL LICENSE**

Estimated burden per response to comply with this mandatory collection request 7 minutes. The validated registration serves as evidence to suppliers of byproduct material that the registrant is entitled to receive the byproduct of byproduct material that the registrant is entitled to receive the byproduct material. Send comments regarding burden estimate to the Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by internet e-mail to bjs1@nc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0038), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to the information collection. person is not required to respond to, the information collection.

Section 31.11 of 10 CFR 31 establishes a general license authorizing physicians, clinical laboratories, hospitals, and veterinarians in the practice of veterinary medicine to possess certain small quantities of byproduct material for in vitro clinical or laboratory tests not involving the internal or external administration of the byproduct material or the radiation therefrom to human beings or animals. Possession of byproduct material under 10 CFR 31.11 is not authorized until the physician, clinical laboratory, hospital, or veterinarian in the practice of

veterinary medicine, has filed NRC Form 483 and received from the Commission a validated copy of NRC Form 483 with a registration number.	
1. NAME AND ADDRESS OF APPLICANT (See Instruction 3.B. below)	2. APPLICATION (Check one box only)
Diagnostic Laboratory Services 650 Iwilei Road	I hereby apply for a registration number pursuant to 10 CFR 31, Section 31.11, for use of byproduct materials for:
Suite 300 Honolulu, Hawii 96817	Myself, a duly licensed physician authorized to disperse drugs in the practice of medicine.
Monorara, mawir 90017	The above-named clinical laboratory.
TELEPHONE NUMBER (Include Area Code):	The above named hospital.
808-589-5120	Veterinarian in the practice of veterinary medicine.
INSRUCTIONS	4. REGISTRATION
A. Submit this form in duplicate to:	REGISTRATION NUMBER: 3311
Materials Safety Branch (T-8 F5) Division of Industrial and Medical Nuclear Safety Office of Nuclear Material Safety and Safeguards U.S. Nuclear Regulatory Commission Washington, DC 20555-0001	A. REGISTRATION REGISTRATION NUMBER: 3311 SFOR THE U.S. NUCLEAR REGULATOR COMMISSION Traci Kime Than Tyme //- 18-99
(At NRC, a registration number will be assigned and a validated copy of NRC Form 483 will be returned.)	Traci Kime Okase 7xxe
In the box above, print or type the name, address (including ZIP Code), and telephone number of the registrant physician, clinical laboratory, hospital, or veterinarian in the practice of veterinary medicine for whom or for which this registration form is filed.	
If place of use is different from address listed above, give complete address.	
6. CERTIFICATION	
I hereby certify that:	
A. All information in this registration certificate is true and complete.	
B. The registrant has appropriate radiation measuring instruments to carry out the tests for which byproduct material will be used under the general license of 10 CFR 31.11. The tests will be performed only by personnel competent in the use of the instruments and in the handling of the byproduct materials.	
C. I understand that Commission regulations require that any change in the information furnished by a registrant on this registration certificate be reported to the Director of Nuclear Material Safety and Safeguards within 30 days from the effective date of such change.	
D. I have read and understand the provisions of Section 31.11 of NRC regulations 10 CFR 31 (reprinted on the reverse side of this form); and I understand that the registrant is required to comply with those provisions as to all byproduct material which he receives, acquires, possesses, uses, or transfers under the general license for which this Registration Certificate is filed with the U.S. Nuclear Regulatory Commission.	
PRINTED OR TYPED NAME AND TITLE OF APPLICANT	SIGNATURE DATE JULI 199

WARNING: FALSE STATEMENTS IN THIS CERTIFICATE MAY BE SUBJECT TO CIVIL AND/OR CRIMINAL PENALTIES. NRC REGULATIONS REQUIRE THAT SUBMISSIONS TO THE NRC BE COMPLETE AND ACCURATE IN ALL MATERIAL RESPECTS. 18 U.S.C. 1001 MAKES IT A CRIMINAL OFFENSE TO MAKE A WILLFULLY FALSE STATEMENT OR REPRESENTATION TO THE UNITED STATES AS TO ANY MATTER WITHIN ITS JURISDICTION.	

CONDITIONS AND LIMITATIONS OF GENERAL LICENSE 10 CFR 31.11

§31.11 General icense for use of byproduct materials for cortain in vitro clinical or laboratory testing.

(a) A general license is hereby issued to any physician, vulerinarien in the practice of veterinary medicine, clinical laborators or hospital to receive, acquire, possess, transfer, or use, for any of the following stated tests, in accordance with the provisions of paragraphs (b), (c), (d), (e), and (f) of this section, the forewing byproduct materials in prepackaged units:

(1) Jodine-125, in units not exceeding 10 microcurtes each for use in in vitre clinical or laboratory tests not involving internal or external administration of byproduct material, or the radiation

therefrom, to human beings or animals.

(2) Tourno-13 I, in units no expeeding 10 microcures each for use in in vitro clinical or laboratory tests not involving internal or external administration of byproduct material, or the radiation the refrom, to human beings or animals.

(3) Carbon-14, in units not exceeding 10 microcures each for use in in vitra clinical or laboratory tests not involving internal or external administration of byproduct material, or the radiation

therefrom, to human beings or animals.

(4) Hydrogen 3 (tritium), in units not exceeding 50 microcuries each for use in in vitra clinical or laboratory tests not involving a ternal or external administration of byproduct material, or the radiation therefrom, to human beings or animals.
(5) Iron 59, in units not exceeding 20 microcuries each for use

in in vitro clinical or laboratory tests not involving internal or external administration of improduct material, or the radiation therefrom, to

burnan beings er an male.

(5) Salanium-75, in units not exceeding 10 migrocuries each for use in in vitro clinical or laboratory tests not involving internal or

osternal administration of byproduct material, or the radiation therefrom, to human beings or animals.

(7) Mock lodir s-125 reference or calibration sources, in units et excepting 0.85 is traduite of jodine-129 and 0.005 microcurie of american 241 open for use in in vitro clinical or laboratory tests not involving internal or external administration of byproduct acadefiel, or the racticion therefrom, to human beings or enimals.

(b) A person shall not receive, acquire, possess, use or . Attainsfor byproduct material under the general license established

by paragraph (a) of this section unless that person:

(1) Has filed NRC Form 483, "Registration Certificate - in vito pating with Byproduct Material Under General Liberge," with the Director of Nuclear Meternal Safety and Safeguards, U.S. Muclear Regulatory Ceminiscion, Washington, DC 20535-0001, and received from the Commission a validated copy of NRC Form 483 with registration number assigned; or

(2) Has a ficense that authorizes the medical use of byproduct

paderial that was issued under Part 35 of this chapter.

(c) A person who receives, acquires, possesses or uses Lyproduct material pursuant to the general license established by awagraph (a) of this section shall comply with the following:

(1) The general identices shall not passess, at any one time.

pursuant to the general idense in paragraph (a) of this section, at any one location of storage or use, a total amount of locine 125, iddina 131, selenium-75, and/or from 50 in excess of 200

Antim Takasi (1884-1884) Ana Bindhingan wasan saka di anganggan sahingan sakasa tahasa da kasa (1884-1884) ang

(2) The general ficenses shall store the hyproduct material, until used, in the original shipping container or in a container providing equivalent radiation protection.

The general licensee shall use the byproduct material on

the uses cuthorized by paragraph (a) of this section.

(4) The general licenses shall not transfer the byproduct material, sacapt by transfer to a person authorized to receive it by a licence pursuant to this chapter or from an Agreement State, nor transfer the byproduct material in any manner other than in the unopened, labeled shipping container as required by §20 301 of this chapter.

(5) The general licensee shall dispose of the Mock lotting-125 reference or calibration sources described in paragraph (a)(7) of this section, as required by §20,301 of this chapter.

(d) The general lice usee shall not receive, acquire, possess, or a byproduct material pursuant to paragraph (a) of this section:

(1) Except as prepackaged units which are labeled in (1) Except as prepackaged units which are labeled in accordance with the provisions of a specific license issued under the provisions of §32.71 of this chapter or in accordance with the provisions of a specific license insued by an Agreement State that callborizes manufacture and distribution of iod ne-125, iodine-131, purbon-14, hydrogen-3 (riffum), selenium-75, iron-59 cr Mock ladine-136 for distribution to persons generally licensed by the Agreement State.

(2) Unless the following statement, or a substantially similar statement which confains the information called for in the following statement, appears on a label affixed to each prepackaged unit or appears in a leaster or brochuse which accompanies the package:

This radinactive material may be received, acquired, possessed, and used only by physicians, veterinarions in the process of veterinary medicine, clinical laboratories or hespitals and anly for in vitro clinical or aboratory tests not involving internal or external actainistration of the material or the radiation therefrom, to human beings or animals. Its receipt, acquisition, possession, use, and transfer are subject to the regulations and a general license of the U.S. Nucleur Regulatory Commission or of a State with which the Commission has entered into an egreement for the exercise of \sim regulatory authority.

NAME OF PANUFACIURER

(a) The registrant possessing or using byproduct material under the general license of paragraph (a) of this section shall report in solding to the Director of Nuclear Material Safety and Safeguards any changes in the information furnished by him in NRC Form 241, "Registration Certificate" in vitro Testing with Byproduct Material Under General License "The report with the funished within an days after the offsetive data of cush shares. funished within 30 days after the affective date of such change.

(f) Any person using syproduct material pursuant to the general license of paragraph (a) of this section is exempt from the requirements of Fights 19, 20, and 21 of this chapter with respect to byproduct materials covered by that general license, except that stion persons tising the Mock ledine-125 described in paragraph (a)(7) of this section shall comply with the provisions of §20.301, 20.402, and 20.403 of this chapter.

MOTES

- A State to which certain regulatory authority over radioactive material has been transferred by formal agree transferred by formal agree transferred by 274 of the Atomic Energy Act of 1954, as smended.
 - ² Material generally licensed under this section prior to January 19, 1975, may beer labels authorized by the regulations in effect on January 1, 1975.
 - 3 A new triplicate set of this Registration Certificate, NRC Form 483, may be used to report any change of information furnished by a registrant as required by §31.11(e).

If larger quantities or other forms of byproduct material than those specified in the general ficunce of 10 CFR 31.11 are required, file NRC Form 313, "Application for Byproduct Material License," to obtain a specific byproduct material Lorense. Dies of application and registration forms may be obtained from the Medical, Academic and commercial Use Safety Branch (O-6 H3), Division of Industrial and Medical Nuclear Safety, United States Nuclear Regulatory Commission, Washington, DC 20555-0001.
